## HAPPY ANNIVERSARY

February 2019 marks a significant milestone in the history of Achen-Gardner Construction as we celebrate 30 years of providing high-quality pre-construction and construction services. Since our modest beginnings in 1989 we have completed thousands of projects and built countless relationships in the public and private sectors, and we are honored to be an integral part of the growth of Arizona.

Our company's founders and early management teams established the principles that have led to our success over the years. We are guided by the values of honesty, trust, integrity, fairness, loyalty, and hard work. Achen-Gardner Construction is dedicated to construction excellence and proof of this is shown by our outstanding reputation and ability to thrive in a highly competitive market.

This is the perfect time to look back at our history and express our deepest gratitude to all of our employees, clients, partners, and friends for all that you have done in making our first 30 years successful. We also look forward to our exciting future as a part of the Emery Sapp and Sons employee-owned family of companies and the opportunities that will allow us to work with our clients and shape our community.

# STATE PRISON BAR SCREEN PROJECT WINS APWA AWARD

We are honored to receive a 2019 Public Works Project of the Year Award from the Southern Arizona Branch of the American Public Works Association (APWA) for our Arizona State Prison Bar Screen project for the Pima County Regional Wastewater Reclamation Department (PCRWRD). This award was in the Structures, Less Than \$5M category. Members of the project team will accept the award at the Southern Arizona Chapter APWA Awards Luncheon on March 28th.

The Arizona State Prison Bar Screen project is unique in that it was installed in a gravity sewer to filter debris prior to entering an interceptor. It is also the first pretreatment device of its kind for PCRWRD to have installed in the system itself and not at a treatment plant. [Find out more about this exciting project on our website.](#)
