Job Order Master Agreement: Wastewater Conveyance System

If you've spent any time in Pima County in the past few years, you've probably seen Achen-Gardner's crews improving wet utility infrastructure within public right of way. Our Pima County Regional Wastewater Reclamation Department Job Order Contracting project has provided us with the opportunity to work in more than 450 different locations in Pima County. Our work involves the repair/upgrade of existing facilities by varying methods including: remove/replace existing sewer pipe, Ultraviolet Light (UV) Cured-In-Place Pipe (CIPP) Rehabilitation, UV CIPP point repairs, rehabilitate existing manholes, frame and cover adjustments, construct new manholes, odor control equipment installation, and booster pump station rehabilitation and new construction. Total quantities to date include more than: 175 point repairs, 4,000 LF of pipe removal and replacement, 80,000 LF of CIPP, 85 manhole adjustments, 100 manhole rehabs, 25 new manholes, and 70 UV CIPP point repairs.
