NEWS

## Supporting Intel's Expansion

Achen-Gardner Construction is relocating more than 6,800 LF of wet utilities and 20 manholes in support of SRP's High Tech Interconnect Project which will provide power to the expansion of Intel's Ocotillo Campus. The **Chandler Heights Utility Relocations CMAR** project for the City of Chandler is on a critical schedule while the Intel expansion is under construction concurrently. ## UV CIPP Lining in Avondale

We recently self-performed the rehabilitation of more than 1,300 LF of 15" sewer line using our exclusive ultraviolet light cured-in-place pipe (UV CIPP) technology. The sewer line crosses under the MC-85 and Union Pacific Railroad (UPRR) near Litchfield Road and required permitting and coordination with UPRR. We completed this work as part of our **Sewer Repair and Design Services CMAR** project for the City of Avondale. Scope included one bypass setup with more than 8,300 LF of bypass piping to manage flows up to 0.8 MGD. [Visit our website for more project information and photos.](#)

## Project Executive

Achen-Gardner is pleased to announce the addition of **Bryan Mueller as Project Executive**. Bryan will bring his extensive experience in all aspects of wet utility, water/wastewater, roadway, and heavy civil construction to provide support to our Project Management staff and help ensure the high level of service that our clients have come to expect.

## Conference Wrap Up

It was great seeing all of our friends and partners at the **AZ Water Association's 93rd Annual Conference and Exhibition** on April 12-14th at the Phoenix Convention Center. We showcased recent work, handed out fun and useful giveaways, and participated in technical presentations about several of our recent projects. [Visit our website for more information and photos.](#)

## Redfield Roundabout

Our crews recently poured new curb leading up to the future roundabout at Redfield Road and 76th Place as part of our **Raintree Drive Extension CMAR** project for the City of Scottsdale. [Visit our website for more project information and photos.](#)

## Setting the Stage

Crews have completed the underground piping and are preparing to pour the concrete slab for a new 300,000 gallon reservoir on our **Carefree Water Consolidation CMAR** project. Next will be the construction of the pre-cast tank walls. [Visit our website for more project information and photos.](#)

## Chandler Pipeline Work

We are replacing more than 2,200 feet of 12-inch pipe from the Arrowhead Water Production Facility (WPF) to Chandler Boulevard as part of our **Arrowhead WPF Rehabilitation and Pecos SWTP Surge System DBB** project for the City of Chandler. [Visit our website for more project information and photos.](#)
