WHAT WE DO

Reline America® Inc. is the leading North American manufacturer of ALPHALINER™ (formerly known as Blue-Tek™) ultra-violet glass reinforced cured-in-place pipe (UV CIPP).

Reline America® Inc. manufactures state-of-the-art installation equipment specific to ALPHALINER™ including our award-winning tamper resistant Quality-Tracker System™ to monitor and record all critical aspects of the installation process.

We serve the infrastructure protection and rehabilitation needs of municipalities, DOTs and industries throughout North America.

Our ISO 9001:2008 certified facility in Saltville, Virginia produces durable, dependable products that offer a user-friendly, efficient installation process that is backed by a comprehensive installer training program.

Lining equipment rigs, support vehicles and equipment are designed and built to suit each customer's specific requirements and budget.

Liners and equipment can be shipped directly to job work sites or storage facilities

Liners are custom produced according to your contract requirements

ALPHALINER™

ALPHALINER™ 500 and 1500 are glass reinforced, spirally wound UV CIPP liners, custom-made to your specifications using the finest materials available worldwide.

Ideal for circular, ovoid, arch, rectangular and special cross-sections

ALPHALINER™ is available in diameters of 6 to 54 inches and can be produced in continuous lengths exceeding 1,000 feet.

RENTALS

Rental equipment, accessories and tools are available for certified ALPHALINER™ Installers.

TRAINING & CERTIFICATION

ALPHALINER™ installers are provided an extensive training and certification program.

QUALITY ASSURANCE

Our in-house laboratory tests raw materials and liners throughout the manufacturing process.

Through our network of certified installers, Reline America® is providing asset owners a safe, cost-effective method for protecting and renewing their aging underground pipelines.

INSTALLER SUPPORT

TECHNICAL:

If you need assistance with your liner installation, one of our field service managers can be on hand to assist you with the liner install and complete cure at the job site.

In the event you are working on a large diameter project or a project that may have extenuating circumstances we also are here for you.

MARKETING & SALES:

Our marketing specialists are available to assist you with every part of your project, from bidding to contract completion.

We offer a broad range of marketing essentials including engineering guides and specifications.

Our ultimate goal is to see you succeed in securing bid opportunities. We welcome the opportunity to work with you one-on-one to meet this goal.

WHY UV CIPP AND ALPHALINER™

Across North America, pipes and culverts are increasingly in need of renewal. Community and environmental impact are substantially reduced with the use of trenchless pipe rehabilitation.
